

ROLL-OUT AND PROJECT MANAGEMENT TOOLS

All of this must come with security in the core of your network. The next key enhancement is operational insight tools for device management and roll-out. XDA brings this altogether allowing the retailer to continuously and quickly innovate.

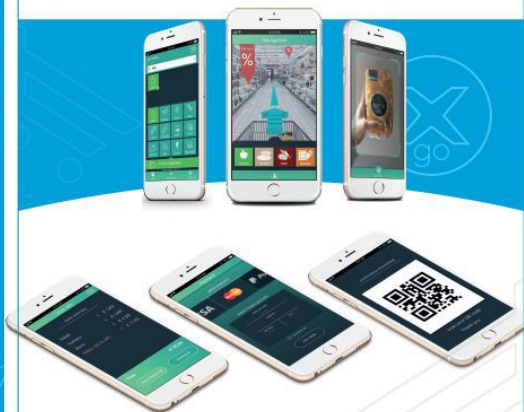

XDA PROJECT MANAGER

This geo-fencing visual planning tool easy manages project milestones and to-dos without developing the full programmer skill set. XDA goes beyond just project management. It helps you run, manage and organize your entire project and roll-out business. XDA brings together project management, visual tour planning, configurable workflow automation, and collaboration. Everyone involved can track to-do tasks, communicate effortlessly and participate. XDA connects your internal workforce and external partners, eliminate silos and bring new levels of visibility and progress into complex projects.

MOBILE SELF-CHECKOUT - SCAN AND GO

The new digital network for the store must be designed to optimize your retail operations, empower your employees to be productive and customer focused, create a personalized customer experience, and do so in a way that protects your retail brand and secures your operations.
